### 4. First aid measures

#### 4.1. Description of first aid measures

##### General

In all cases of doubt, or when symptoms persist, seek medical attention.  
 Never give anything by mouth to an unconscious person.

##### Inhalation

If dry powder component is inhaled, remove to fresh air. If breathing is difficult, administer oxygen. If not breathing, provide artificial respiration. Immediately seek medical attention.

##### Eyes

Do not let the victim rub his/her eye(s). Hold eyes apart and flush eyes with water for at least 1-5 minutes. Seek medical attention immediately.

##### Skin

Do not let the victim rub his/her eye(s). Hold eyes apart and flush eyes with water for at least 15 minutes. Seek medical attention immediately.

##### Ingestion

Immediately contact a Poison Center or doctor/physician. If swallowed, induce vomiting if directed by medical personnel. Never give anything by mouth to an unconscious person.

#### 4.2. Most important symptoms and effects, both acute and delayed

SDS Revision Date:

23 July 2015

**Overview**

Eye Contact: Contact with eyes may cause irritation.

Skin Contact: May cause irritation or rash.

Inhalation: In its final form, inhalation is not a likely route of exposure, but health effects may be similar to those from ingestion.

Ingestion: Accidental ingestion in an occupational scenario is not a likely route of exposure. However, in the event of ingestion, health effects are expected to include nausea and gastrointestinal disturbance.

## 5. Fire-fighting measures

**5.1. Extinguishing media**

Product is non-flammable. However, use an appropriate media including water spray, dry powder, foam, or carbon dioxide for the surrounding fire.

**5.2. Special hazards arising from the substance or mixture**

Hazardous decomposition: No hazardous decomposition data available.

**5.3. Advice for fire-fighters**

Wear personal protective equipment to prevent contact with skin and eyes.

Product is non-flammable, but when heated to decomposition it may emit acrid smoke and irritating fumes.

ERG Guide No. ----

## 6. Accidental release measures

**6.1. Personal precautions, protective equipment and emergency procedures**

Put on appropriate personal protective equipment (see section 8).

**6.2. Environmental precautions**

Do not allow spills to enter drains or waterways.

Use good personal hygiene practices. Wash hands before eating, drinking, smoking or using toilet. Promptly remove soiled clothing and wash thoroughly before reuse.

**6.3. Methods and material for containment and cleaning up**

The following spill response instructions only apply to bulk quantities of the material. Report emergency situations immediately. Non-essential personnel should be evacuated from the affected area. Spills should be cleaned up in a manner that minimizes exposure to personnel and to the environment. Personnel involved in the clean up of spills should wear the appropriate gloves and eye protection. Clean spill area thoroughly with soap and water. Collect wash with absorbent material and transfer all waste to a labeled container for disposal. Observe all applicable regulations when disposing of this substance.

## 7. Handling and storage

**7.1. Precautions for safe handling**

In a manufacturing setting or other situation where exposure to the substance may occur wear appropriate personal

SDS Revision Date:

protective equipment. Use good personal hygiene - wash hands and exposed skin thoroughly with soap and water after handling. Remove any contaminated clothing and clean before reuse. Properly dispose of contaminated belts and shoes and other items that cannot be decontaminated.

Keep away from heat and flame.

### 7.2. Conditions for safe storage, including any incompatibilities

Handle containers carefully to prevent damage and spillage.

Incompatible materials: No data available.

When not in use, store in a cool, dry, well-ventilated area. Store dry blend at -20 C and hydration fluid at 4 C in closed containers that are labeled in accordance with OSHA's Hazard Communication Standard [29 CFR 1910.1200]. Keep this drug out of the reach of children.

### 8.2. Exposure controls

#### Respiratory

If exposure limits are exceeded, approved respiratory protection should be worn. Seek professional assistance for proper selection of respiratory protection.

#### Eyes

Wear appropriate chemical safety goggles, safety glasses or face shield as described by OSHA's eye and face protection regulations in 29 CFR 1910.133. Have eyewash stations available where eye contact can occur.

#### Skin

Avoid unintended skin contact. Wear gloves impervious to conditions of use. Additional protection may be necessary to prevent skin contact including the use of a face shield, boots, or coveralls. A safety shower should be located in the work area.

#### Engineering Controls

Under normal conditions normally required. However in a manufacturing environment, the use of local ventilation is recommended to control emissions near the source. Provide mechanical ventilation for confined spaces. If user operations generate aerosols, use ventilation to keep exposure to airborne contaminants below the exposure limit.

#### Other Work Practices

Use good personal hygiene practices. Wash hands before eating, drinking, smoking or using toilet. Promptly remove soiled clothing and wash thoroughly before reuse.
